## **Birmingham Newman University**

The university is named after the 19<sup>th</sup> century cardinal St John Henry Newman who wrote 'The idea of a university' in 1852, and we are still guided by the vision of a community of scholars. The university is built around community, and the belief that education enables students to develop new ways of understanding the world, to help make a positive impact within it. This is delivered through smaller class sizes and an interactive learning style. The Catholic ethos has been retained and our students are from all faiths and none. The university is proud of its diverse, friendly and inclusive environment, where students are welcomed and receive transformational learning opportunities together with support in preparing for employment.

The modern single campus, eight miles southwest of Birmingham city centre has had a recent £20M investment into the campus facilities, building Halls for 200 students, and improving the teaching, learning and social spaces for students with outdoor and indoor facilities. A new law court, a careers and employability hub together with a computer science lab, and accessible student helpdesk are some of the additional facilities and improvements made for our students. The university continues to build its environmental sustainability, already generating 20% 193000kW, of our energy used via on site of solar energy.

In addition, the building of a new School of Nursing and Allied Health has been established to broaden the curriculum including new courses in Adult Nursing, Mental Health Nursing and Physiotherapy which started in September 2023. The university will be providing qualified practitioners from diverse backgrounds, for the local West Midlands Health sector, and beyond.

We are proud to be ranked as 1st for Student Satisfaction 2025 by the Good University Guide, while also we were 1st in the West Midlands and 7th in England for full-time student satisfaction in the National Student Survey 2024. Enrolments from non-selective state schools are one of the highest in the country (99%) and Birmingham Newman University has the biggest proportion of students who are first in their family to experience higher education (72.2%), with more than 45% of students coming from Black, Asian or ethnic minority backgrounds. The university runs outreach programmes and has many partnerships with more than 50 schools and further education colleges in the region offering support and opportunity to pupils.

The university is 'teaching-led' and does not employ staff for research alone but ensures that students have regular contact with active researchers.
